

## Diesel EGR & Induction System Cleaner

**The Revolutionary EGR System Cleaner** steals the show with unbelievable results! This unique solvent-free product is formulated to safely dissolve carbon buildup on contact. It is designed to restore your diesel engine back to factory conditions.

Rapidly expanding high volume foam is delivered simultaneously into the intake and exhaust side of the engine with our patented Diesel Force™ equipment. Buildup is removed from the inner surfaces and passageways of the induction system and all major emissions system components

### Features & Benefits

- Decreases unscheduled down-time
- Significantly reduces replacement part cost
- removes particle buildup from EGR and Induction System
- Cleans the EGR cooler, reducing intake air temperature
- Scrubs the DOC and DPF, reducing regeneration cycles
- Increases turbo speed and boost, which increases efficiency
- Smooths rough idle and improves performance
- Cleans differential pressure sensor ports and grid heaters
- Extends engine life

Available Product Sizes	Part Number
1 Gal	DF630-1
4/1 Gal	DF630
2/2.5 Gal	DF640
